- ✓ Like to create new things

FREE HIGH SCHOOL STUDENT MANUFACTURING WORKSHOP

Who can apply?

High school students
Age 16 - 18

When?

June 10 – 12, 2024
8:30 AM – 3:00 PM

Where?

Livermore Valley Open Campus
Livermore, CA 94550

How to apply?

Submit online application
Deadline: April 17, 2024

Topics include: machining | process manufacturing

Projects include: 3D printing | computer design

Lawrence Livermore National Laboratory's missions depend on specialized manufacturing capabilities not available outside the Laboratory. Machining professionals fabricate parts for LLNL to implement research and design innovations.

In this workshop, students will have the opportunity to design and create objects using 3D printing techniques. Students will learn about career opportunities within manufacturing and gain insight into LLNL's Machinist Apprenticeship Program, a 4-year California-certified program that offers paid education plus training in the machine-tool trade.
